Coming 2016…

The River Academy!

Transforming the Learning Barge and Paradise Creek Nature Park into one integrated curriculum, pre-K through college.

Dominion Virginia Power Learning Barge – America’s Greenest Vessel. Students discover the wonders of their home river aboard a barge with a live wetland, sun and wind power.

Paradise Creek Nature Park – An Urban Oasis. All ages explore the power of environmental stewardship through restored wetlands and forest at our 40-acre park in the heart of the working harbor.

Made possible by the new Educational Fund, Elizabeth River Project; and many generous grantors.
