

Youth Imagine a Resilient Future:

Imagine, innovate, implement and share at **The Youth Resilience Expo**

Hampton Roads is experiencing challenges from the rising seas and flooding and we need YOUTH to create innovative solutions as we learn to adapt to the water and become resilient. The Elizabeth River Project will showcase student's projects addressing these issues at the Youth Resilience Expo.

Seeking Students to Implement Resilient Projects that address flooding and reducing carbon footprint

WHO: Student teams of any size can participate; Teams will attend Virtual Youth Resilient Expo on April 23, 2022.

WHAT: Choose investigative questions such as:

- How can we capture and reuse rain water?
- How can we address flooding and/or reduce runoff pollution?
- How do we encourage resilience action?
- What can we do to reduce our carbon footprint?

Students should implement their idea, measure results and share at the Virtual Youth Resilience Expo. Students are encouraged to think out-of-the box. All virtual Expo presentations will be in the form of a video. Students can document their progress, show diagrams, tables, film their actions etc.

HOW:

Oct.-March: Implement a project that addresses a challenge and measures results. Limited funding for projects may be available! Contact Sarah McBride for resources.

April 2: Project & Video Deadline. Submit summary (100 words or less) and 3 minute video. Video may include photos, videos, project measurable results, data, etc.

April 23: Each team will showcase their work at the Virtual Youth Resilience Expo in a video submissions.

Awards: Elizabeth River Project will give out awards and recognize you as a Resilient River Star School!
