

DO SOMETHING BEAUTIFUL

Become a River Star School

Lead a student environmental action project that improves your school and your community

The Elizabeth River watershed is experiencing environmental challenges such as flooding and sea level rise. We need youth to create innovative solutions and become River Star Schools.

WHAT CAN STUDENTS DO?

Student and teacher teams of any size or grade level can take action! Choose an investigative question like how can we:

- Capture and reuse rain water?
- Reduce flooding and/or runoff pollution?
- Reduce our carbon footprint?
- Increase biodiversity and habitat?
- Any other environmental inquiry

Students work together to turn their ideas into action and document their progress through presentations, videos, diagrams, flyers, and more.

Note: Grant money may be available to support your project. Please reach out for more information.

HOW IT WORKS

- 1  Reach out to Elizabeth River Project to get support and guidance.
- 2  Complete an environmental action project with your class/group.
- 3  Send us pictures and a short summary of your project by **May 14, 2027**.
- 4  Celebrate! Receive an award and recognition for becoming a River Star School.

EARN RECOGNITION!

- ✓ River Star School Award
- ✓ Student Certificates
- ✓ Recognition on ERP's website

NEW! This year we will be giving a "River Star Teacher of the Year" award to a teacher who goes above and beyond!
